

Moving Forward Together

Dr. Michael Walker, RPA, CHFM

There are moments which demand a response to unprecedented challenges and enormous obstacles. During 2020, our nation, state, and local areas witnessed firsthand the effects of the COVID-19 Pandemic. Building owners and managers were tasked with enhancing building cleanliness, preserving relationships with clients and vendors, implementing new policies and procedures, and working with local and state officials to ensure safe reentry into commercial office buildings. Through it all, building owners and managers rose to the challenge.

BOMA Greater Dallas, like our fellow BOMA associations across the nation adjusted operational plans, worked diligently to keep our members informed, connected, and involved while mastering the art of video conference meetings. New moments present new opportunities and BOMA Greater Dallas stands ready to turn new opportunities into new achievements.

I am honored to serve as the 2021/2022 President of the Board of Directors; it is a privilege and I look forward to building upon the rich legacy of our great association. If there is one imperative for our association, it is this: moving forward is not optional. The annual theme, then, is “Moving Forward Together.”

Moving Forward Together rest upon six pillars:

Service to Others

Healthy Communities

Innovative Advancement

Fiscal Sustainability

Transformative Growth

Together, we can reach new heights, accomplish new goals, and realize new success in the commercial real estate industry. Together, we can build upon the strengths of our association and our contributions to BOMA Southwest Region and BOMA International. Together, we cast our nets wide as we continue with our mission: Adding value to the commercial real estate industry in Greater Dallas.

BOMA Greater Dallas is committed to serving our members, the Greater Dallas community and commercial real estate industry. I look forward to an exciting year of Moving Forward Together and until I speak with you again...I'll see you round like a donut.
